Nal Solutions. 06/2016 - 12/2016*Senior .Net Developer*

- Product: HOLON
- Description: Migrates from windows form to web form for fashion clothes management system.
- Owner: Japan
- Responsibilities
 - Coding modules.
 - Support team members.
 - Training for new members.
- Tech Stack: ASP.NET Winform/Webform, Oracle 12c.

Clearpath Development LLC. 01/2015 - 02/2016*Senior .Net Developer*

- Product: CLA
- Description: Web Portal for mortgage sellers.
- Owner: LoanLogics (USA)
- Responsibilities: analysis requirements, implement features/modules of web application.
- Tech Stack: ASP.NET, DevExpress Controls, MongoDB, WCF...

FPT Software. 05/2010 - 09/2014**Project: IMS**

- Description: Web application for Incident Management System (incidents, e-drill, performance...)
- Owner: PETRONAS (Maylaysia)
- Project size: 200 MM
- Position: Team Leader

- Responsibilities
 - Study & Transfer client's framework to team members.
 - Create Detailed Design documents.
 - Create Coding Modules Detailed Plan.
 - Tracking & Review code for team members.
 - Create Release Notes document.
 - Communicate with customer to create templates, coding plan for data migration tools.
 - Onsite Malaysia to deploy and define fix bugs plan.
 - Fix bug GUI on mobile (iPad, Android)
- Tech Stack: C#, MVC3 Razor, Javascript, Ajax, JQuery, DevExpress controls, Highcharts...

Project: ADB

- Description: Web application for Insurance management & maintenance.
- Owner: Old Republic Title (USA)
- Project size: 600 MM
- Position: .Net Developer
- Responsibilities
 - Create detailed design documents of assigned modules
 - Analysis requirements and implement modules for SPA web application
- Tech Stack:
 - C#, EF, WCF, MVC3 Razor, MSTest, JQuery, Css...
 - Singleton Pattern, Autofac, Appfabric cache...
 - Telerik controls, Crystal Report

Project: Supreme

- Description: Service Request System for Supreme Court (Media Repository System).
- Owner: Supreme Court (Singapore)
- Project size: 20 MM
- Position: .Net Developer
- Responsibilities: Upgrading and fixing bug from old system
- Tech Stack: ASP.NET, Javascript, Ajax, Css, Sharepoint 2010, Telerik controls...

Project: TCF

- Description: Windows application to supply management systems and computing operations for Fans' industrial.
- Owner: Twin City Fan (USA)
- Project size: 750 MM
- Position: .Net Developer
- Responsibilities: Coding modules to calculate the fan performance, manage fan accessories, and save all the fan info (setting, sound, performance, accessories, pricing...) into database.
- Tech Stack: C# .NET, WPF, WCF, CSLA, EF, LINQ, SQL Server 2008...

Dia Viet. 10/2008 - 04/2010

Software Developer

- Product: Transportation Infrastructure Management System
- Description: Apply GIS in the management and maintenance plan for upgrading or building new transport infrastructure
- Owner: No. 1 Urban Traffic Management Area (Ho Chi Minh City Department of Transportation)
- Responsibilities
 - Coding modules integrated with GeoMedia Professional to manage the transport infrastructure data.
 - Deploy and train the app using.
- Tech Stack: Visual Basic .NET, MS Access, Oracle 10g, MapServer, OpenLayers...

EDUCATION

SaiGon Technology University

Bachelor of Engineering in Software Engineering, 2004 – 2008

BEHAVIOURS

- Ability to work independently and as part of a team. Work well in a collaborative environment with internal and external stakeholders.
- Ability to work and collaborate with remote team.
- Practice a learning mindset, soliciting and leveraging feedback to grow while helping to improve processes, practices, and use of industry-leading technologies.
