Tech Stack	- C# Winform/Console, ASP.NET WebApi, .Net Core, VB6, ServiceStack Web Service, ASMX Web Service, Linq to SQL, EF, Dapper, Autofac… - Angularjs/Angular, Typescript, Bootstrap, Sencha Touch, ExternalJs… - Crystal Report - WordPress - Zoho Books, Zoho Subscriptions, Appcues, Chilkat FTP - Azure Storage, Azure Functions, Azure APIM, Azure AD B2C - SQL Server (2016), MySQL, Redis - GitHub, TeamCity, Octopus

Company: **Inscyth Technologies**. From: 12/2017 - To: 10/2018

Product	Hauspro
Owner	inscyth.com (USA)
Position	Senior developer
Responsibilities	- Coding modules for web/ionic application. - Review code
Project Description	Manage orders, materials, and distributor of kitchen equipment
Tech Stack	- ASP.NET MVC, WebAPI, Dapper, Ionic, MSSQL Server… - Angular 4.xx, Typescript…

Company: **Peddler**. From: 07/2017 - To: 12/2017

Product	Peddler
Owner	peddler.com (Netherland)
Position	Frontend Developer
Responsibilities	- Coding all modules for web admin system - Coding modules for web application
Project Description	Online retailer like amazon
Tech Stack	- Nodejs + Loopback + Mongodb for the server/API - Loopback + Angularjs for the admin system - Loopback + Reactjs + Fluxible for the web application

Company: **Deki connect**. From: 01/2017 - To: 06/2017

Project Name	Product Xinkciti (xinkciti.com)
Client	Business and companies
Position	Senior .Net Developer
Responsibilities	- Manage domain, code server, azure server - Custom modules in dotnetnuke core. Create webapi to integrated with other modules… - Review code and support team members
Project Description	- A 3D map to manage the infrastructures, companies - A CMS portal to manage the admin info of registered companies, businesses
Tech Stack	Dotnetnuke 8, WebAPI, Nodejs, MongoDB…

Company: **Nal Solutions**. From: 06/2016 - To: 12/2016	
Project Name	HOLON
Client	Japan
Position	Senior .Net Developer
Responsibilities	- Coding modules. - Support team members. - Training for new members.
Project Description	Migrates from windows form to web form for fashion clothes management system.
Tech Stack	ASP.NET Winform/Webform, Oracle 12c.
Company: **Clearpath Development LLC**. From: 01/2015 - To: 02/2016	
Project Name	CLA
Company	LoanLogics (USA)
Project size	120MM
Position	Senior .Net Developer
Responsibilities	Coding modules.
Project Description	Web Portal for mortgage sellers
Tech Stack	ASP.NET, DevExpress Controls, MongoDB, WCF…
Company: **FPT Software**. From: 12/2013 - To: 09/2014	
Project Name	**IMS**
Company	PETRONAS (Maylaysia)
Project size	200MM
Position	Team Leader
Responsibilities	- Study & Transfer client's framework to team members. - Create Detailed Design documents. - Create Coding Modules Detailed Plan. - Tracking & Review code for team members. - Create Release Notes document. - Communicate with customer to create templates, coding plan for data migration tools. - Onsite Malaysia to deploy and define fix bugs plan. - Fix bug GUI on mobile (iPad, Android)
Project Description	Web application for Incident Management System (incidents, e-drill, performance…)
Tech Stack	C#, MVC3 Razor, Javascript, Ajax, JQuery, DevExpress controls, Highcharts…
Project Name	**ADB**
Company	Old Republic Title (USA)
Project size	600 MM.
Position	Web Developer
Responsibilities	- Create detailed design documents of assigned modules. - Coding modules (CRUD to ORT order, contact maintenance, policies and web service…).
Project Description	Web application for Insurance management & maintenance system and connect to other systems of branches all over the world.
Tech Stack	- C#, EF, WCF, MVC3 Razor, Jquery, Css… - Telerik controls. - Singleton Pattern, Autofac, Appfabric cache… - Crystal Report
Project Name	**Supreme**
Company	Supreme Court (Singapore)
Project size	20 MM.
Position	Web Developer

Responsibilities	Upgrading and fixing bug from old system.
Project Description	Service Request System for Supreme Court Media Repository System
Tech Stack	ASP.NET, Javascript, Ajax, Css, Sharepoint 2010, Telerik controls…
Project Name	**TCF**
Company	Twin City Fan (USA)
Project size	750 MM.
Position	Software Developer
Responsibilities	Coding modules to calculate the fan performance, manage fan accessories, and save all the fan info (setting, sound, performance, accessories, pricing…) into database.
Project Description	Windows application to supply management systems and computing operations for Fans' industrial.
Tech Stack	C# .NET, WPF, WCF, CSLA, EF, LINQ, SQL Server 2008…

Company: **DIA VIET INVESTMENT JOINT STOCK COMPANY**. From: 10/2008 - To: 04/2010	

Project Name	Transportation Infrastructure Management System
Company	No. 1 Urban Traffic Management Area.
Client	Ho Chi Minh City Department of Transportation.
Project size	Over 20 people and completed 10 months long time.
Position	Software Developer
Responsibilities	- Coding modules integrated with GeoMedia Professional to manage the transport infrastructure data. - Deploy and train the app using.
Project Description	Apply GIS in the management and maintenance plan for upgrading or building new transport infrastructure.
Tech Stack	Visual Basic .NET, MS Access, Oracle 10g, MapServer, OpenLayers…
